

TECHNICAL DATA SHEET**T Cloths 10****Water Based Cleaning Wipes**

Description	Lint-free cleaning cloths impregnated with water based cleaner, for the removal general dirt, marks, grime and oils from a wide variety of surfaces.
Features	<ul style="list-style-type: none">• As a universal factory cleaning product, these double-faced cloths have been carefully selected to allow a choice of smooth and lightly abrasive surfaces.• Water based - no flammability hazards or storage restrictions.• No disposal problems – environmentally desirable.• Effective on painted and plastic surfaces.• Suitable for office, production and maintenance areas.• Typical uses include:<ul style="list-style-type: none">▪ Production Processes – cleaning before pretreatment▪ Office Equipment – finger marks and static grime removal.▪ Production Equipment – oily hand marks and spills easily wiped away.▪ Tiles and Sanitary Ware – grime removed without abrasive.▪ Walls and Skirting – scuff and hand marks quickly removed.▪ Workshops and Garages – will clean virtually anything.
Product Code	MP0330.
Equipment	For casual use, personal protection equipment is not normally required. Where prolonged use may occur, protective gloves may be appropriate to avoid any personal sensitivities or defatting actions of the skin. No inhalation protection is necessary. The cloths should not be used for wiping skin areas.
Application	<p>The cloths are supplied ready for use.</p> <p>Wiping a surface with the rough side first loosens the dirt effectively, and then using the smooth side gives enhanced pick-up of the residues. On surfaces where a smear-free appearance is critical, final wiping with a damp sponge or clean cloth is required.</p> <p>Pretreatment use: T Cloths 10 are effective for cleaning metals, but if the cloths are to be used as part of a pretreatment or painting process, a further cleaning stage to ensure removal of any residual soaps, should be undertaken.</p>
Flash Point	None. Does not contain solvent, does not support combustion.
Shelf Life	12 months minimum from date of manufacture when correctly stored in unopened containers.
Storage	The closed container should be stored in a cool, dry area. When not in use, the container should be kept sealed.
